

...effortless access to the water.

*The valuable time you spend on the water should be as easy and as effortless as possible, and let's face it, there are only two days in the weekend and holiday time is limited. Our docking systems is designed to minimize the time you spend moving in and out of the water.*

Our Safe Haven Systems provide easy and effortless access to the water. They are manufactured using only state of the art materials to ensure the highest levels of quality and durability. The outer shell is molded linear low-density polyethylene. Translation... this material is extremely impact and weather resistant. Also, we use light colors for our outer shell, making our Safe Haven Systems kind to bare feet. In addition, our docking systems offer unsurpassed stability when launching, docking, or walking around on the spacious non-skid deck.

The added stability is due to the core being filled with foam flotation, so our docking systems will remain more level than other cube style lifts when in use. You will grow to appreciate the easy and effortless access to the water that the Safe Haven Systems provide. Additionally, installation is a snap, and your lift can be front or side mounted to your dock using our secure attachment system. It's that easy - your system is complete and ready to use.

To launch your watercraft, simply slide off and drive away. When you're ready to return to your favorite port of call, simply target the bow guide, drive on, and walk away. While docked, you can refuel, wash your watercraft, perform maintenance, or just enjoy the view.

You will no longer waste time and money removing marine growth from your watercraft, because it is securely docked out of the water. In addition, you can look forward to years of trouble free operation from the Safe Haven Systems.

If you purchase a larger or heavier boat, we offer extensions and additional bunk heights to meet your changing needs. The extensions will accommodate most boats. The Harbor and Retreat 2 lines feature a hybrid system to aid in launching or docking most of the heavier boats.

Given the adaptability, ease of use, and low maintenance of Safe Haven Systems, let us help you minimize your effort and expense and maximize your time spent on the water with family and friends.

# Retreat™ & Retreat™ 2

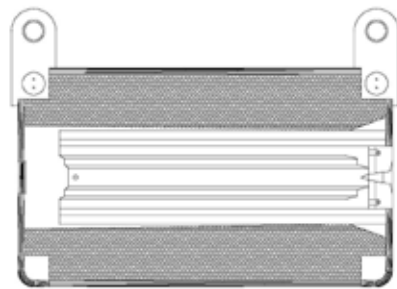

## Features\*:

- Easiest boatlift to operate
- Non skid deck
- Zero maintenance
- Easy installation
- A perfect fit for most types of watercraft
- State-of-the-art, linear low density polyethylene, non-corrosive materials
- Floats with tide or water level changes
- Unsinkable, foam filled
- Side & Front Mount
- Tail extensions have multiple replaceable bunk sizes available
- Optional Solar Hybrid
- 8-year limited warranty

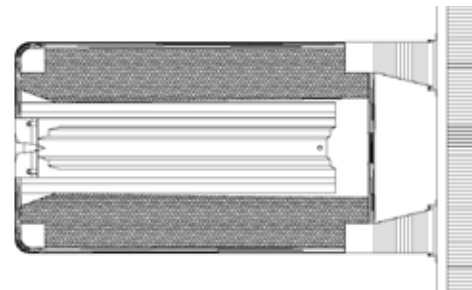

## Retreat™ Dimensions:

- 12' x 7' platform
- Maximum working load 2000 lbs.

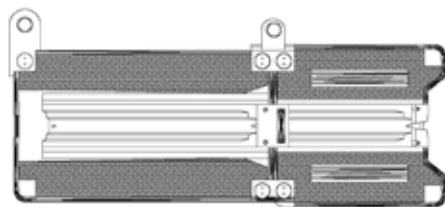

## Attachment Materials:

- Kits available for floating and fixed docks

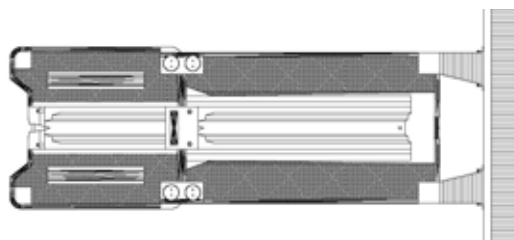

## Retreat™ 2 Dimensions:

- 20' x 7.5' platform
- Maximum working load 3500 lbs.

## Attachment Materials:

- Kits available for floating and fixed docks

# Retreat™ 2 Solar Hybrid

## Features\*:

- Same great features as the Retreat™ and Retreat™ 2, Plus...
- Simple lift design requires no remote controls
- Does not use environmental hazards such as hydraulic fluid, oils, greases or zincs
- Easy docking and launching
- Solar power recharge
- No electrical power needed
- No winch required
- No mechanical failures to prevent launching boat
- 110v power supply offered

## Retreat™ 2 Solar Hybrid

### Dimensions:

- 20' x 7.5' platform
- Maximum working load 3500 lbs.

### Attachment Materials:

- Kits available for floating and fixed docks

redesigned Harbor product line!

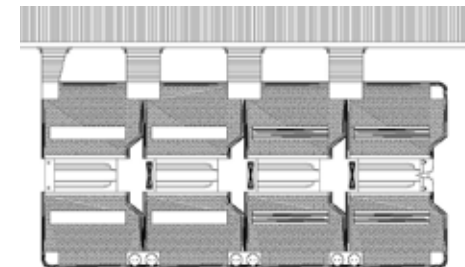

**NEW!**

Now comes standard with  
Solar Hybrid feature to make  
launching even easier!

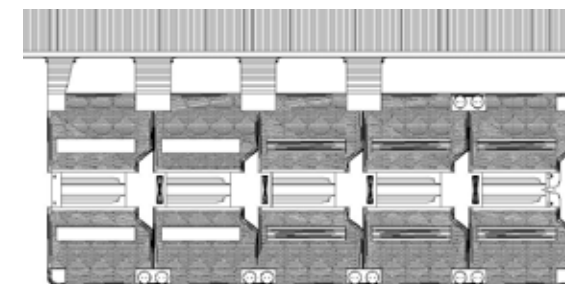

**Dimensions of Harbor™:**

- 18' x 11' platform
- Maximum working load 4500 lbs.

**Dimensions of Harbor™ 2:**

- 24' x 11' platform
- Maximum working load 6000 lbs.

**Dimensions of Harbor™ 3:**

- 30' x 11' platform
- Maximum working load 7500 lbs.

# Harbor™ Harbor™ 2 Harbor™ 3

**Features\*:**

- Easiest boatlift to operate
- Simple lift design requires no remote controls
- Does not use environmental hazards such as hydraulic fluid, oils, greases or zincs
- Non skid deck
- Zero maintenance
- Easy installation
- Unsinkable, foam filled
- A perfect fit for most types of watercraft
- State-of-the-art, linear low density polyethylene, non-corrosive materials
- Floats with tide or water level changes
- Tail extensions have multiple, replaceable bunk sizes available
- Side & Front Mount
- Solar Hybrid System
- No exposed metal framing
- No mechanical failures to prevent launching boat
- 8-year limited warranty

**Attachment Materials:**

- Kits available for floating and fixed docks

# Hideaway™

## Features\*:

- Easiest PWC lift to operate
- Non skid deck
- Zero maintenance
- Easy installation
- Six-rollers for easy launching
- Side mounted rollers require no maintenance or adjustments
- State-of-the-art, linear low density polyethylene, non-corrosive materials
- Floats with tide or water level changes
- Unsinkable, foam filled
- All impact and wear surfaces are replaceable
- 10-year limited warranty

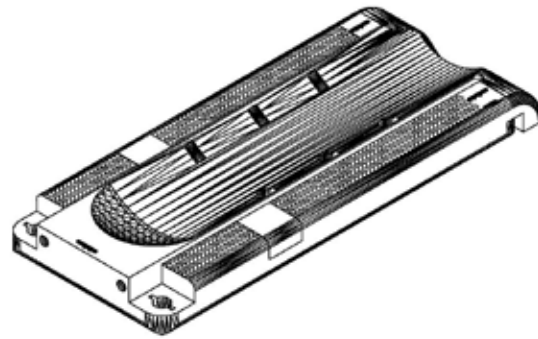

## Dimensions:

- 12'5" x 5' x 9" platform
- Maximum working load 1300 lbs.

## Attachment Materials:

- Floating Dock Attachment Kit
- Fixed Dock Attachment Kit
- Hideaway Attachment Kit with storage compartment (Floating Dock Only)

\* Patent Pending

# Jet-T™

## Features\*:

- Non skid deck
- Zero maintenance
- Easy installation
- State-of-the-art, linear low density polyethylene, non-corrosive materials
- Floats with tide or water level changes
- Unsinkable, foam filled
- 3-year limited warranty

## Dimensions:

- 9'3" x 5'9" x 9" platform
- Maximum working load 1000 lbs.

## Attachment Materials:

- PVC attachment kit for calm water areas
- Use standard 4" PVC pipe for easy mounting
- Hot dip galvanized attachment kit for rough water areas
